Fordybelse og eftertanke.

Er der noget du har undret dig over i ugens løb, men ikke haft tid til fordybelse/eftertanke - så er det måske idag du kunne benytte tiden til det og derved måske opnå nogle erkendelser, som er frugtbare for dig og vil lette vejen fremover.

Immersion and reflection.

If there is something you have wondered about during the week, but have not had time for contemplation / reflection - then maybe today you could use the time for it and thereby perhaps achieve some realizations that are fruitful for you and will ease the way forward.
